

JOIN US THIS HOLIDAY SEASON FOR

MINI MAKERS & MASTER PLAYERS

This year we are excited to offer two concurrent classes that makeup two amazing offerings.

Younger students, ages 5 to 8 (or so) will participate in MiniMakers.

Arriving at 1:00PM they will enjoy TinkerTime* followed by group discussion and instruction on the day's activities. Following that start, there will be a mix of snack time, planned crafting and making, and game playing. Pick up is at 3:00PM.

Older Students, ages 9 to 14 (or so) will participate in MasterPlayers.

Arriving at 1:00PM they will enjoy TinkerTime* followed by group discussion and instruction to day's activities. Following that start, there will be a mix of snack time, strategy learning, game playing, and on occasion, game-related crafting. Pick up is at 3:00PM.

*TinkerTime is a semi-guided free craft/tinkering time. As the students learn new skills and are introduced to new skills/tools/games/materials those activities become available during TinkerTime. Examples of TinkerTime activities include marble maze building, LEGO creations, free drawing, kinetic sand play, beading, embossing, building with popsicle sticks and hot glue, and more.
